

Dear FCC:

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides a variety and quality of music and information that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that free Americans deserve. Do not take away our First Amendment rights!
